

The Auburn and Pathfinder Sales Co.

The New Home of The World's Greatest Automobiles

THE AUBURN AND PATHFINDER SALES COMPANY is now in its new location at Twenty-fourth and M Streets. The doors are thrown wide open, an invitation to the motoring public.

Our formal opening began Monday at 8 P. M. and continues throughout the week closing Saturday night at 10 P. M. During this week we will have on exhibition the 1917 models of the Auburn and Pathfinder cars, an automobile show all our own.

Here, in a building specially designed, just completed, we have provided one of the best equipped motor-car salesrooms and service stations in the country.

But this, we believe, is no more than the just due of the two great cars---THE AUBURN and PATHFINDER THE GREAT, KING OF TWELVES, which we handle.

We have chosen the AUBURN and PATHFINDER pleasure cars because we believe in them as a basis for building a permanent and successful business. Each in its class represents the utmost that automobile engineers have evolved.

In addition we have taken the agency for the Service Motor truck. We selected this particular commercial vehicle for we found among other things that its line was the most complete. We are prepared to furnish it in ½, 1, 1½, 2, 3½ and 5-ton models.

Satisfaction of the owner is, and always will be our chief concern. We are not, and cannot be satisfied until he is satisfied. We hold his interests above all else.

That he may be fully and finally pleased, that the service may be prompt and efficient, we maintain a large and competent force of skilled mechanics under the supervision of automobile experts. All work is minutely and rigidly inspected before it leaves.

We shall be glad to have you call and inspect the Auburn, the Pathfinder, the Service truck and the Auburn and Pathfinder Sales Company's Twenty-fourth and M streets garage and service station.

Owners of any make machines are invited to call and make their own selection of parking place for their cars in the garage.
